

PROJECT DESIGN PHASE-1

SOLUTION ARCHITECTURE

DATE	28 October 2022
TEAM ID	PNT2022TMID43802
PROJECT NAME	AI-Powered Nutrition Analyzer For Fitness Enthusiasts
Maximum Marks	4 Marks

SOLUTION ARCHITECTURE:

Answer architecture is a complicated process – with many sub-tactics – that bridges

The gap between commercial enterprise problems and era answers. Its dreams are to:

- find the excellent tech option to solve current enterprise problems.
- Describe the structure, characteristics, conduct, and different factors of the Software to task stakeholders.
- define capabilities, development stages, and answer requirements.
- provide specs consistent with which the answer is described, managed, and brought.
