

PROJECT PLANNING PHASE

MILESTONE & ACTIVITY LIST

Date	01 November 2022
Team ID	PNT2022TMID43802
Project Name	AI-powered Nutrition Analyzer for Fitness Enthusiasts

Milestone:

Artificial Intelligence paperwork the premise for all pc gaining knowledge of and is the destiny of all complicated selection making. To construct a model that's used for classifying the fruit depends on the one-of-a-kind characteristics like shade, shape, texture and so on. Right here the consumer can capture the pix of various culmination and then the picture might be despatched the educated model. The model analyses the photograph and discover the nutrients primarily based at the fruits like (Sugar, Fibre, Protein, calories, and so forth.).

Activity List:

In Project Planning provides structure and foresight for the execution stage, helping to eliminate wasteful activities and patterns. In this Activity can shows the various activity are allocated and done by the team members. We can split into four steps of phrase are

Phrase 1: Information Collection and Requirement Analysis.

Phrase 2: Project Planning and Developing Modules.

Phrase 3: Implement the High Accuracy Deep Learning Algorithm to perform.

Phrase 4: Deploying the models on Cloud and Testing the Model and UI performance
